New York Stock Market.

-New York, Feb. 17 .- At the stock exchange the week closed as it opened, namely, dull and uninteresting. During the session only 85,000 shares changed hands. The bulls accorded the Grangers good support at the start and fractional advances were recorded, but as the in dustrials developed weakness disposi tion to realize in the railway list was soon manifested. Speculation, however, was listless throughout and was con fined largely to the traders in the board, the uncertainty in regard to legislation at Wassington still checking operation.

On the contrary Whiskey declined 1½ to 27%, and Sugar 1% to 73%. Chicago Gas dropped 1% to 63% on dispatches from Chicago that another ordinance against the trust would be introduced against the trust would be introduced in the common council early next week. The same remark appertains to be the bank statement. The decrease of \$11,-096,875 in reserve excited little interest as the banks still have \$74,000,000 sur-plus against \$13,000,000 last year, and money is practically unlendable, except at merely nominal rates. The move-ment of currency is still in favor of this centre and the loss in the bank reserves has been due entirely to the extraordinary payments into the account of the government loan. These payments are now about completed. The market
